

SEMINAR SERIES

Restoring Endangered Whitebark Pine Ecosystems in Northern BC

***Alana Clason and Sybille Haeussler
Bulkley Valley Research Centre***

John Kelson collecting cones

In this seminar, Dr. Sybille Haeussler and Alana Clason will discuss their research and conservation work on whitebark pine since the initiation of the Bulkley Valley Research Centre whitebark pine program in 2007. Come learn about this charismatic and ecologically important tree species and what the research centre is doing to aid in its conservation.

Wednesday, April 2, 2014

LOCATION:
Northwest Community College
3966 2nd Avenue
Smithers

Free Admission. Bring your lunch.
