

TREVOR SCHIBLI

**Awarded the 2019 Irving Fox Memorial Scholarship for
Natural Resources Research and Management**

Trevor has always been interested in life sciences, but his fascination with fungi bloomed (or perhaps mushroomed) more recently. He enjoys nature photography, especially mushrooms, and his other pass-times include hiking, writing, and music. Trevor was born in Smithers, and hopes to return to the northwest during and after his studies. Having just graduated from high school in Smithers, he will be pursuing a Bachelor of Science in Biology starting this fall at UNBC.
